

MD. SHAHID ALI

Full-Stack Software Engineer • Python & React Specialist

📍 Jamshedpur, India • ✉ alishahid555443@gmail.com • 📞 +91 6207431327 • 🔗 [LinkedIn](#) • 🐙 [GitHub](#) • 📁 [Portfolio](#)

PROFESSIONAL SUMMARY

Full-Stack Software Engineer with 1+ years of production experience architecting scalable multi-tenant SaaS platforms, high-concurrency real-time collaboration engines, and resilient REST/ASGI microservices. Expert in building end-to-end web architectures with **Python (Django Channels, FastAPI), React, TypeScript, WebSockets, WebRTC**, and **PostgreSQL / Redis** infrastructure. Demonstrated strength in implementing enterprise RBAC security models, automated workflow pipelines, and low-latency client interfaces.

TECHNICAL SKILLS

Languages	Python, TypeScript, JavaScript (ES6+), SQL, HTML5, CSS3 / Modern CSS
Backend & Frameworks	Django, Django REST Framework (DRF), Django Channels (ASGI), FastAPI, RESTful APIs, OAuth2, Webhooks
Frontend & Architecture	React.js, Redux Toolkit, Custom Hooks, Context API, Material UI (MUI), Tailwind CSS, Responsive Design
Real-Time & Media	WebSockets, WebRTC (Audio/Video Calling, P2P mesh), Redis Pub/Sub, Cloudinary CDN, LLM APIs (Groq, LLaMA)
Databases & DevOps	PostgreSQL (Neon Tech), Redis, SQLite, Git, GitHub, Postman, Vercel, Cloudflare Directives, Linux

WORK EXPERIENCE

1+ Years Production Experience

Software Developer | Shout OTB

May 2026 — Present | Remote (Bhopal, MP)

- Spearheaded full-stack engineering of **Shout Sync**, an enterprise workspace supporting multi-tenant teams, interactive spreadsheets, Kanban boards, and sub-50ms live chat.
- Architected asynchronous ASGI services with **Django Channels** and **Redis** layers to power high-throughput concurrent WebSocket connections.
- Engineered peer-to-peer **WebRTC voice/video calling** with dynamic ICE signaling, media stream toggles, and connection health monitors.
- Implemented enterprise **4-tier Role-Based Access Control (RBAC)** and JWT authentication ensuring strict cross-workspace data isolation.
- Built performant UI components with **React, TypeScript, Redux Toolkit, and MUI**, cutting state re-renders by ~40%.

Software Developer Intern | Shout OTB

Oct 2025 — Apr 2026 | Remote (Bhopal, MP)

- Architected and deployed the core agency web platform ([shoutotb.com](#)) using Python REST APIs and dynamic React routing.
- Engineered social audit diagnostic tools analyzing YouTube retention curves and Instagram engagement scoring signals.
- Optimized PostgreSQL database schemas and complex queries, improving API throughput and decreasing endpoint latency by ~35%.

Web Developer Intern | SpikiTech Private Limited

Sep 2025 — Oct 2025 | Remote

- Constructed responsive, mobile-first frontend interfaces and modular component layouts using modern JavaScript and semantic HTML5/CSS3.
- Collaborated within a Git-driven agile development workflow, managing feature branches, resolving merge conflicts, and performing QA testing.

PRODUCTION FULL-STACK PROJECTS

Shout Sync — Enterprise Collaborative Workspace Suite

Django ASGI, React, TypeScript, WebSockets, WebRTC, Redis, PostgreSQL

[Live App Demo](#)

- Built an all-in-one collaborative workspace featuring real-time messaging, dynamic spreadsheets, Kanban tasks, and multi-peer video meetings.
- Engineered low-latency bidirectional WebSocket communications over ASGI Channels backed by Redis pub/sub.
- Implemented WebRTC audio/video calling with screen sharing, participant state sync, and connection fallback handling.

Social Auto Engine — Automated Multi-Channel Publishing Hub

FastAPI, Python, OAuth2, Groq LLM API, Cloudinary CDN, Webhooks

[Live App Demo](#)

- Engineered an automated media dispatcher publishing content to YouTube, Instagram, X (Twitter), Facebook, Discord, and Telegram simultaneously.
- Integrated OAuth2 token lifecycle management and automatic rate-limit retry queues with exponential backoff.
- Leveraged Groq / LLaMA LLM APIs for automated content generation, paired with Cloudinary CDN for automated asset optimization.

Shout Diagnostics & Analytics Engine

Python, REST APIs, React, Data Pipelines, Webhook Ingestion

[Live Portal](#)

- Built diagnostic analyzers processing YouTube engagement/retention signals and Instagram media scoring metrics into visual client reports.
- Developed interactive visual dashboard interfaces in React mapping complex algorithmic diagnostic outputs to actionable insights.

EDUCATION

DEGREE / QUALIFICATION	INSTITUTION	SCORE	YEAR
Bachelor of Science (B.Sc.) in Computer Science Focus: Distributed Systems, Relational DBMS, Discrete Logic	BITS Pilani (Birla Institute of Technology and Science)	Pursuing	2026 — 2029
Senior Secondary Certificate (CBSE Class 12th)	Xavier's English High School	90%	2022 — 2024
Secondary School Certificate (CBSE Class 10th)	Xavier's English High School	70%	2020 — 2022
