PROFESSIONAL SUMMARY

Shopify Systems Architect & Theme Developer with hands-on experience building and customizing **15+ production Shopify stores** for international and US-based design clients. Specialized in bespoke Liquid architecture, custom Alabaster/Dawn theme extensions, looped SVG animations, mega menus, and third-party app integrations. Experienced in building automated backend pipelines using **Python (BeautifulSoup, Pandas)** and **Shopify Admin REST/GraphQL APIs** to automate catalog ingestion, collection creation, and dataset cleaning.

TECHNICAL SKILLS

Shopify & Templating	Custom Shopify Liquid, JSON Templates, Theme Customization (Alabaster, Dawn, Prestige), Sections & Blocks, Shopify CLI
Frontend & UI/UX	JavaScript (ES6+), Modern HTML5/CSS3, SCSS, Looped SVG Decorations, Multi-Tier Mega Menus, Micro-Interactions, Mobile UI
Catalog & Data Automation	Python (BeautifulSoup, Pandas, Requests), Automated Product Scraping, Catalog Ingestion, CSV Transformation & Cleaning
APIs & Store Integrations	Shopify Admin REST & GraphQL APIs, Webhooks, Custom Collection Tagging/Types, Wishlist Apps, Smart Product Filters
Tools & DevOps	Git, GitHub, Postman, Shopify Admin Dashboard, Asset CDN Optimization, Google Sheets/CSV Pipelines, Linux

WORK EXPERIENCE

15+ Client Stores Engineered

Shopify & Software Developer | [Shout OTB](#)

May 2026 — Present | Remote (Bhopal, MP)

- Solely engineered and customized **15+ high-end Shopify storefronts** for US design agencies and luxury commercial clients.
- Architected custom **Shopify Liquid** sections, dynamic looped SVG page dividers, multi-tier mega menus, and Dark/Light theme modes.
- Developed automated **Python scripts (Pandas, BeautifulSoup)** to scrape product catalogs, clean messy spreadsheets into formatted CSVs, and create structured collections via **Shopify Admin REST & GraphQL APIs** using dynamic tags/types.
- Configured and deeply customized third-party apps including Wishlist engines, advanced product filtering systems, and dynamic variant swatches.
- Maintained sub-2s mobile load times through CSS optimization, asset minification, and Cloudinary CDN image pipelines.

Software Developer Intern | [Shout OTB](#)

Oct 2025 — Apr 2026 | Remote (Bhopal, MP)

- Engineered custom frontend components and Python API integration flows for the agency platform ([shoutotb.com](#) ↗).
- Constructed data processing scripts to extract, clean, and validate multi-source catalog datasets for client migrations.
- Optimized backend data pipelines and database queries, accelerating content synchronization speeds by ~35%.

Web Developer Intern | [SpikiTech Private Limited](#)

Sep 2025 — Oct 2025 | Remote

- Engineered responsive, cross-browser web interfaces and modern layouts utilizing semantic HTML5, modern CSS3, and JavaScript.
- Collaborated within a Git-driven agile development workflow, managing feature branches, resolving merge conflicts, and performing UI audits.

FEATURED SHOPIFY CLIENT STORES

Austin Design House — Luxury Interior Storefront

Custom Alabaster Theme, Python Scraper, REST API, Looped SVG, Wishlist App

[Visit Store](#) ↗ (Store Password: seocre)

- Customized Alabaster theme framework featuring custom looped SVG section borders, bespoke interactive button states, and custom typography.
- Engineered custom Python automation scripts (Pandas, BeautifulSoup) for automated collection generation by tags/types and clean CSV data importing.
- Integrated and styled customized third-party applications including a native Wishlist system, smart multi-attribute filters, and custom menus.

Thomas Matthew Designs — Custom Shopify Plus Storefront [Shopify Liquid](#), [Custom Mega Menu](#), [Dark/Light Mode](#), [Python Data Automation](#)

[Visit Store](#) ↗ (Store Password: beevup)

- Engineered bespoke scroll-animated Liquid sections, multi-tier mega menus, dynamic Dark/Light theme switching, and smooth UI transitions.
- Built automated catalog scraping and data-cleaning scripts in Python to validate and import hundreds of product variants via Shopify Admin APIs.

Minhnuyet Hardy Interiors — Architectural E-Commerce Store

Custom Alabaster Theme, Liquid Blocks, Product Sync, Asset Optimization

[Visit Store](#) ↗ (Store Password: eupria)

- Customized Alabaster framework with tailored architectural gallery grids, micro-interactions, and high-resolution automated product synchronization.
- Implemented high-speed responsive product collection templates with optimized CDN media loading for luxury furniture displays.
